## Items Needed:

- Paper Cup (6 or 7 oz.)
- Bubble solution (see below)
- Gauze, cheese cloth, or washcloth fabric
- Rubber band
- Scissors
- Straw

## Magic Bubble Solution:

- 1 Tbsp. glycerin
- 2 Tbsp. dish soap
- 9 oz. water
- Mix together and place into a container

## Directions:

1. Poke a hole in side of the cup, or use a hole punch. It should be just large enough for the straw to fit through.
2. Push the straw through the hole.
3. Cut a piece of fabric that will cover the top (approximately 6in. x 6 in.). Use the rubber band to secure it on top of the cup.
4. Turn the cup over and dip the fabric into the bubble solution.
5. Blow through the straw to create your tower of bubbles!
